## **Quality of Care & Primary Health Care:**

Scanning the horizon of the evolving agenda for QOC MNCH

Dr Shams Syed Special Programme on PHC WHO Headquarters

**Quality of Care Network Meeting Accra, Ghana** 

March 15, 2023

### Session at a glance

### PHC evolution, current guidance and quality of care linkages

Focused presentation to provide an overview.

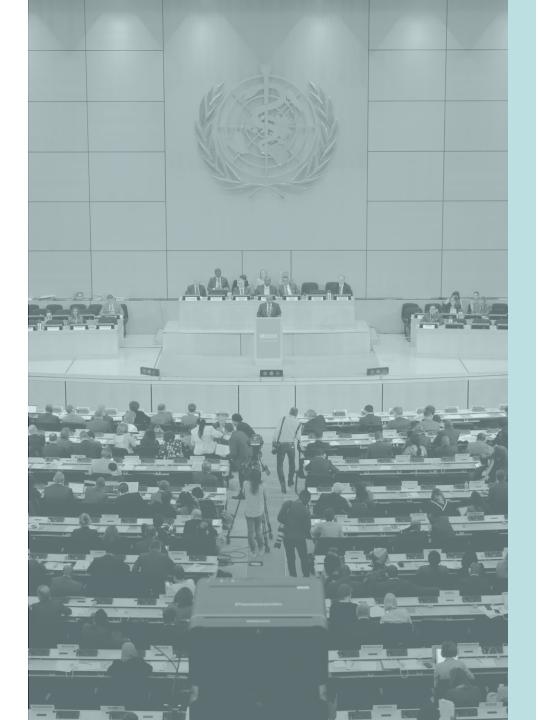

### **Exploratory dialogue**

Explore linkages, synergies and convergence that can inform the evolving agenda for QOC MNCH.

### **Next Steps**

Co-develop potential follow-up actions for consideration

"We must urgently reorient health systems towards primary health care, as the foundation of universal health coverage."

Director General's address at the 150th session of the Executive Board

## VALUES

underpinning PHC have remained the same

- Health for all
- Solidarity
- Community orientation

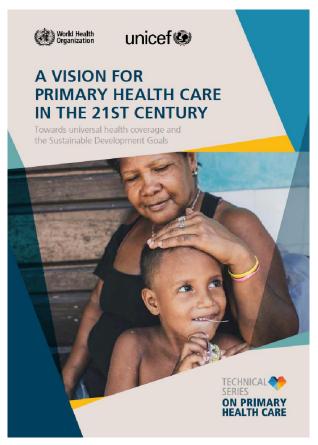

- Social justice
- Equity
- People centredness

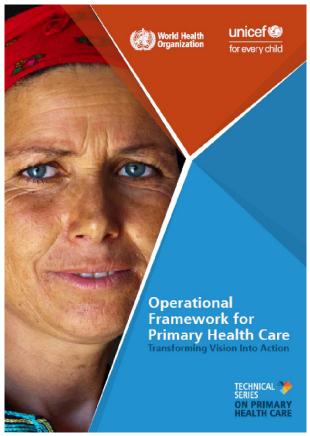

### Global Momentum and Coherence

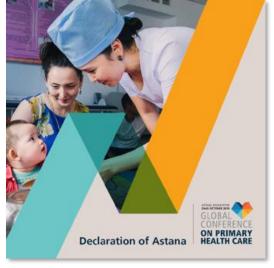

WHA Resolution 72.2 on PHC (2019) UNGA Political Declaration on UHC (2019)

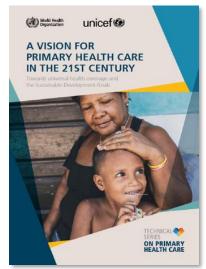

## What is Primary Health Care (PHC)?

# PHC is a <u>whole-of-society approach to health</u> that aims to <u>maximize</u> the level and <u>equitable</u> distribution of health and well-being

- by focusing on people's <u>needs</u> (both as individuals and communities)
- as <u>early</u> as possible along the continuum of care
- as <u>close</u> as feasible to people's everyday environment

## PHC supports UHC and SDGs

## Three components of primary health care

Multisectorality

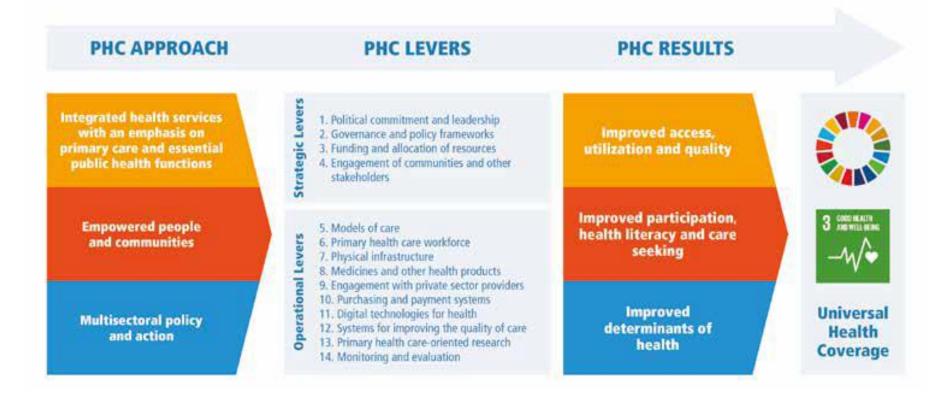

Empowerment

Services

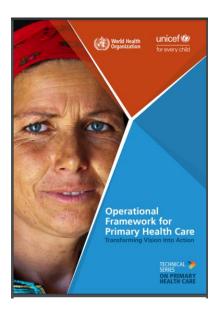

### **Driving PHC Action: WHO UNICEF Operational Framework**

A clear PHC theory of change linking the approach, levers for action and results.

Operational Framework for Primary Health Care (who.int)

- The operational framework proposes 14 levers needed to translate commitment into actions and interventions
- Can be used to accelerate progress into strengthening PHC-oriented systems
- Levers are interdependent and impact and enable each other

## What about quality of care?

PHC APPROACH

#### PHC LEVERS

### **PHC RESULTS**

Integrated health services with an emphasis on primary care and essential public health functions

> Empowered people and communities

Multisectoral policy and action Lever

- 1. Political commitment and leadership
- 2. Governance and policy frameworks
- 3. Funding and allocation of resources
- Engagement of communities and other stakeholders

al Lovers

5. Models of care

- 6. Primary health care workforce
- 7. Physical infrastructure
- 8. Medicines and other health products
- 9. Engagement with private sector providers
- 10. Purchasing and payment systems
- 11. Digital technologies for health
- 12. Systems for improving the quality of care
- 13. Primary health care-oriented research
- 14. Monitoring and evaluation

Improved access, utilization and quality

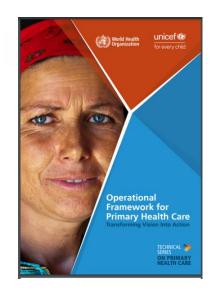

Improved participation, health literacy and care seeking

Improved determinants of health

Universal Health Coverage

### Systems for improving the quality of care

Systems at the local, subnational and national levels to continuously assess and improve the quality of integrated health services

## What might this mean for quality MNCH when scanning the horizon?

- 1. What is the policy trajectory on PHC in each of the countries within the QED network?
- 2. How have quality MNCH efforts linked to PHC efforts as part of scale up?
- 3. What lessons can be drawn from the QED network in relation to QMNCH-PHC linkages?
- 4. How can efforts on quality MNCH best synergize with wider efforts on PHC in the future?
  - Services
  - Multisectorality
  - Empowerment
- 5. How can the WHO-UNICEF PHC operational framework best be applied for the future?
